System Requirements

To perform the exercises on your private computer you need

- either [Node.js](#) (18.x, 16.x or 14.x)
- or [Docker](#)

 *On the university computers Node.js should already be available. You can verify this by running `node -v` on the command line. It should display a 14.x (or higher) version.*

 *You can always fall back to your personal laptop for the exercises as it should be free from virtualization, proxying or installation hurdles!*
